REQUEST FOR CERTIFICATE OF CORRECTION

Honorable Assistant Commissioner for Patents

Sir:

JUN - 9 1999

In reviewing the above-identified patent, an error on the part of applicants was discovered therein. Accordingly, it is requested, under 37 CFR 1.323, that a Certificate of Correction be issued with respect to the foregoing errors.

In particular, in the "Foreign Applications", the filing date of Japanese priority application No. 62-141050 reads as May 6, 1987. This is incorrect and should reflect the correct date of June 5, 1987. Although this date was inadvertently transposed in the Declaration filed in Serial No. 07/702,492, this date was correct in the original Declaration filed in Serial No. 07/091,770.

Moreover, 37 CFR 1.323 states that the Commissioner may issue the Certificate of Correction if the correction does not involve such changes in the patent as would constitute new matter or would require re-examination. Clearly, the correction does not constitute new matter.

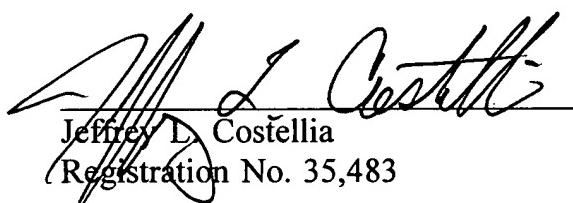

Moreover, issuance of the Certificate of Correction will not require re-examination of the patent.

Accordingly, for all of the foregoing reasons, it is submitted that the

issuance of a Certificate of Correction as proposed in the Certificate of Correction Form PTO 1050 attached hereto is in order and should be granted.

A check in the amount of \$100.00 is enclosed. The Commissioner is hereby authorized to charge any fees which may be further required in this application to Deposit Account No. 19-2380, under this above order number. A duplicate of this sheet is attached.

Respectfully submitted,
